genistein, isoflavones, soy, safety, thyroid

A Corrigendum on:

Update on genistein and thyroid: An overall message of safety

by Marini H, Polito F, Adamo EB, Bitto A, Squadrito F and Benvenga S (2012) *Front. Endocrin.* 3:94. doi: 10.3389/fendo.2012.00094

In the published article, the Conflict of Interest statement was incorrectly filed. The correct Conflict of Interest statement appears below.

Conflict of interest

FS has received research support from Primus Pharmaceuticals for work on genistein. FS and AB are co-inventors on patents referring to genistein activity.

The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
